Instructions for Tests

Exercise Stress Echocardiography

This test involves exercising on a treadmill for a short period of time while we monitor your rhythm and blood pressure. Ultrasound images of the heart will be taken before and after exercise. Please wear comfortable 2 piece attire and walking shoes.

Duration: 20-30 minutes

Echocardiography

This test uses sound waves to take pictures of your heart to assess function and structure.

Duration: 30 minutes

24 Hour Holter Monitoring

Holter monitoring lasts for 24 hours and records your heart rate and rhythm. You wear a small recorder and wires run from the recorder to electrodes attached to your chest. You can go about your normal activities. Loose fitting clothes need to be worn while wearing the monitor. The only restriction while wearing the monitor is no showering.

Duration: 10 minutes to fit.

24 Hour Blood Pressure Monitoring (Privately Billed)

Blood pressure readings are recorded over 24 hours. You wear a small recorder and a blood pressure cuff. You can go about your normal activities. Loose fitting clothes need to be worn while wearing the monitor. The only restriction while wearing the monitor is no showering.

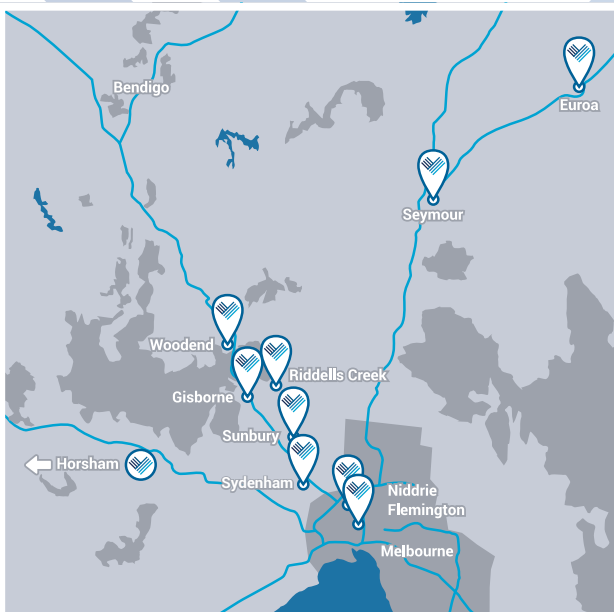

Duration: 10 minutes to fit.

ECG

A simple recording of the electrical activity of the heart. The skin is prepared by rubbing or shaving so that recording dots can stick to the skin.

Duration: 5 minutes

This map indicates where we are located across Victoria.
